

Modular distribution boxes, Distribution boards

Installation ABS boxes

Modular surface mounted distribution boxes are made of high quality synthetic housing, halogen-free, IK07 resistance and IP40 protection degree. Provided with TH35 din, Z+N, transparent left-opened window and pre-fabricated holes for cable glands. Suitable for assembly of low voltage switchgear equipment.

Operating temperature: -5°C/+60°C.

IP40

Distribution surface mounted boards are made of high quality ABS housing, halogen-free, resistant to weather conditions. Distribution boards have metal mounting plate, white or transparent door. Operating temperature: -5°C/+60°C.

Installation ABS boxes

Installation boxes are made of damage-resistant **ABS housing**. Designed for surface mounting, connect electric cable lines.

- Operating temperature: -5°C/+60°C,
- Stainless **steel screws** for cover,
- Protection degree: **IP65 (PI.85X85X40 – IP40)**,
- Colour: **RAL7035 light gray**,
- High damage and **chemicals resistance**.
